1.- Curso "Estatística con R para investigadores"

A Universidade de Vigo organiza a segunda edición do curso **"Estatística con R para investigadores"**, que ten carácter non presencial e terá lugar do 1 ao 31 de maio de 2012. O Curso é eminentemente práctico e aplicado, e realizarase de forma virtual mediante secuenciación das unidades didácticas a través da plataforma de teledocencia da Universidade de Vigo, Faitic.

Está en trámite o recoñecemento pola Consellería de Educación da Xunta de Galicia como actividade de formación permanente a efectos de acreditación do profesorado (a primeira edición do curso tivo xa ese recoñecemento).

- Período de preinscrición: do 1 ao 20 de abril de 2012.

- Criterio de admisión: orde cronolóxica de solicitude.

- Custo da matrícula: 125 euros (parados e membros de SGAPEIO: 90 euros)

Mais información: https://bubela.uvigo.es/curso/1550

2.- Oferta de emprego na Fundación Universidade da Coruña

Convocatoria dun contrato de traballo con cargo a un contrato ART 83 L.O.U xestionado pola Fundación Universidade da Coruña. As solicitudes presentaranse na Secretaría do Departamento de Matemáticas, na Facultade de Informática (Campus de Elviña) desde o 22 de marzo de 2012 ata o 18 de abril de 2012.

Máis información na web da SGAPEIO.

3.- Ofertas de emprego en Barcelona

Oferta 1:

A postdoctoral research position in Operations Management is available at IESE Business School (University of Navarra) in Barcelona, Spain. The objective is to develop research in the area of retail and fashion operations, and more specifically, to build fashion demand models and to study store and production/distribution policies that can adjust to volatile demand trends. The initial appointment will be for one year, with additional years (up to two) contingent upon satisfactory performance. The contract will start in June or September 2012.

Potential candidates should be familiar with mathematical programming (nonlinear and stochastic dynamic programming mainly, use of Matlab) and have some knowledge of data analysis (basics of econometrics). Willingness and ability to interact with industry partners (fashion firms) will be appreciated. A PhD in OR, mathematics or a relevant field is required.

If interested, please send your cv, transcripts and publications to Victor Martínez-de-Albéniz at valbeniz@iese.edu.

Oferta 2:

Two full-time research assistant positions are available at IESE Business School (University of Navarra) in Barcelona, Spain, starting June or September 2012. The positions are ideal for recent math, engineering or economics graduates that are interested in pursuing a research career in Operations Research and Operations Management. The work to be conducted supports the group's research in the area of retail and fashion operations, building optimization models for the management of store and production/distribution systems, where prices, inventory and capacities need to be set dynamically. More information on the research can be found at http://blog.iese.edu/martinezdealbeniz/research/.

Potential candidates should be familiar with mathematical programming (nonlinear and stochastic dynamic programming mainly, use of Matlab) and have some knowledge of data analysis (basics of econometrics).

If interested, please send your cv and transcripts to Victor Martínez-de-Albéniz at valbeniz@iese.edu.
